Sustainable Land Sector Development in Northern Australia

Indigenous rights, aspirations, and cultural responsibilities

Edited by Jeremy Russell-Smith, Glenn James, Howard Pedersen, Kamaljit K. Sangha

Sustainable Land Sector Development in Northern Australia sets out a vision for developing North Australia based on a culturally appropriate and ecologically sustainable land sector economy. This vision supports both Indigenous cultural responsibilities and aspirations, as well as enhancing enterprise opportunities for society as a whole. In the past, well-meaning if often misguided policy agendas have failed - and continue to fail - North Australians. This book helps breach that gap by acknowledging and harnessing Indigenous cultural strengths and knowledge systems for looking after the country and its people, as part of a smart, novel and diversified ecosystem services economy.
